

Come Visit our New Home!

www.ChannelPlus.com

Check out the new ChannelPlus website and see our newest method for whole house video distribution before you design your next home theater. Learn why the industry is buzzing over our new high-resolution solution for distributing quality S-Video over 1,000 ft of CAT-5 wire. Explore how easy it can be to distribute music from 6-sources to 6 or 12 locations.

The ChannelPlus website will also help you get connected with our technical support staff, find a distributor, read the latest newsletter, or order a current catalog.

Whatever your needs are, the ChannelPlus website is here to help. So - pull up a chair - we hope you enjoy your visit.

New! Technical Binders for ChannelPlus and OpenHouse

Technical Binders are now available for ChannelPlus and OpenHouse products. These binders contain corporate information, technical reference sheets, system diagrams and product installation manuals.

A complementary binder has been delivered to each

distributor location. If you have not received your binder please call your local sales representative. Additional binders are available to distributors for \$25.00.

Dealers who would like to purchase a binder may do so by calling our corporate office at 800-999-5225.

Multiplex Technology Receives Award from Chinese Government

“Civilized Enterprise” Award

Multiplex Technology, Inc. was awarded the Civilized Enterprise Award from the Chinese government for its commitment to integrity in business and for providing its employees with a safe, clean, and healthy work environment. Multiplex Technology, which designs and manufactures under the trademarks ChannelPlus and OpenHouse, was one of the few establishments amongst the 10,700 businesses in the Boa-An district to receive the award.

“We are very honored to receive this award,” said Phil Strauss, president of Multiplex Technology, Inc. “We value the relationship we have with our staff and employees in China and are proud to be recognized for providing them with a pleasant and safe working environment.”

The Civilized Enterprise Award was developed by China as a means to recognize and promote

businesses that provide an outstanding professional and progressive business environment. China’s local municipal governments follow a stringent set of rating criteria and approval procedures before issuing this award.

Mid-Summer Madness

The OpenHouse Mid-Summer Madness Promotion begins August 1. Watch your mailbox for more information on summer savings for your favorite OpenHouse products.

ChannelPlus Announces the “SVM Kick-Off” Promotion

ChannelPlus is “Kicking-Off” the new SVM Stereo Modulators with a special introductory offer for distributors, and installers. Details will be announced later this month.

July 2, ChannelPlus Price List Contains New Products!

The new price list dated July 2, 2002 doesn’t have any price changes but it does have new products!

Newly Released & in Stock

For more product details
www.ChannelPlus.com

5557BID: All-In-Two Kit

5557HHR: All-In-Two Kit

5558BID: All-In-Two Kit

5558HHR: All-In-Two Kit

DA-8200HHR: Hi-headroom amplifier

SVC-10: Point-to-Point

S-Video Distribution

SVM-22: 2 Channel Stereo Modulator w/S-video inputs

SVM-24: 4 Channel Stereo Modulator w/S-video inputs

Coming in August

DA8200BID: Bi-Directional RF Amplifier
DMT-24: Telephone Hub
DMT-16: Telephone Hub

Note:

The July 1, 2002 price list contained a typo on pricing for the DMT-16 and DMT-24. Call your local sales representative if you need a new July 2, 2002 price list.

July 1, OpenHouse Lowers Prices

Effective July 1, 2002 OpenHouse lowered pricing on its popular 18" and 36" enclosures making one of the industries best values even better. Pricing was also lowered on the 36" cover .

Coming in August

H512: Modulator with CAT 5 and coax inputs

Call your local sales representative if you need a new July 1, 2002 price list.

Product News

New! Point-to-Point S-Video Distribution

SVC-10 *In stock and shipping now!*

Zero to 1000 in Under a Nanosecond!

Now you can distribute any video source over 1000ft of CAT-5 with no loss of quality. Using CAT -5 wire, the SVC-10 is a two-box

system that can be easily and quickly integrated into any home with existing wire. It provides users with the option of choosing between S-Video, composite video, analog and digital audio outputs. By simply plugging the sending unit into any unused RJ-45 jack and the receiver into the corresponding RJ-45 in another room, the SVC-10 transmits the same high quality audio video signal to any room in the house. For example, connect any video device such as a DVD player, satellite, or Tivo® to the SVC-10 and the audio/video information is transmitted to a remote room up to 1000 feet away.

"With the ability to move S-Video and digital audio over CAT 5, the SVC-10 video point-to-point system is an all around attractive addition to any pre-wired home," noted Tom Paterniti, vice president, Multiplex Technology, Inc. "Not only does it allow users to keep all video devices in one location while watching or listening to those same devices throughout the house, it also provides a higher quality picture as well as superior audio performance."

In addition, the SVC-10 is compatible with today's digital audio sources. It includes a complete IR control system, which allows users to control any connected video source from a remote room using a handheld IR remote. The unit is compatible with all 12-volt IR targets and standard IR emitters. In addition, the IR codes are transmitted over the same CAT 5

wire, maintaining IR integrity with no additional wires needed.

NEW! S-Video Modulators with Stereo Sound and 19" Rack Compatibility

SVM 22 *In stock and shipping now!*
SVM 24

Now you can have it all. The new SVM series of modulators combines true MTS stereo audio encoding with high performance S-video inputs making it the perfect choice for integration into any home theater. The two channel SVM-22 and four channel SVM-24 supports both S-video and composite video inputs in a full component size, rack mountable case. Providing excellent picture and sound, the SVM series includes dbx noise reduction and is compatible with Dolby Pro Logic®.

Features include:

- 2 & 4 channel stereo modulators
- S-Video & composite video inputs
- 25 dBmV of output
- easy push button programming
- plug-n-play connections for loop-outs (no jumpers or "Y" connectors needed).
- integrated IR control
- compatible with 12-volt and 5-volt IR systems.
- can remotely power a ChannelPlus DA-550 or DA-8200 distribution panel from up to 75 feet away.

New! DA-8200 Series Joins the DA Series of Amplifiers

DA-8200HHR *In stock and shipping now!* DA-8200BID *shipping now!*

The DA-8200 is a direct replacement for the 8200. It offers increased versatility with a high headroom (HHR) version for off-air antennas and a bi-directional (BID) version for use with cable modems and digital cable systems. Included mounting brackets allow the DA-8200 series to be installed directly into the ChannelPlus or OpenHouse grid system. Its new industrial design also provides a more spacious area surrounding the "F" connectors for ease in installing.

New! "All-in-Two" Packages offer RF Distribution at a Discount

(shown 5557)

5557HHR or 5557BID Kit:
Provides 2 channels of modulation to 8 rooms with IR control in 2 rooms.

- August 15
- October 17
- December 5

Letters to Larry

Help us Help you

Tips for better results when calling Tech Support

1. Please be prepared to provide us with model number of the unit that you are having problems with.
2. If you want help troubleshooting, you will need to be in front of the equipment that you are having problems with.
3. Please be willing to follow simple step-by-step directions so that we can help you determine what the problem is and advise you how to correct it.
4. It is helpful if you have some basic troubleshooting tools at your disposal when you call, such as:
 - a. A voltmeter.
 - b. An assortment of 3dB and 6dB attenuators (model 2503 and 2506).
 - c. A small portable TV(with 125 channel capability) that can be used to monitor signals at different test points.
 - d. An RF interference filter from Radio Shack (Radio Shack part # 15-579)
5. Please remember that we can only help you troubleshoot Channel Plus and Open House products.

Typical Home Theater using the SVM 24 S-Video Stereo Modulator
